VISIONCORE

Industrial Artificial Intelligence Technologies

Ready to Join the Industry 5.0 Revolution?

visioncore.com.tr +31 614 94 6511 support@visioncore.com.tr

Why AI ?:

Error Management: With our artificial intelligence solutions, we completely eliminate human errors, ensuring flawless accuracy in your processes.

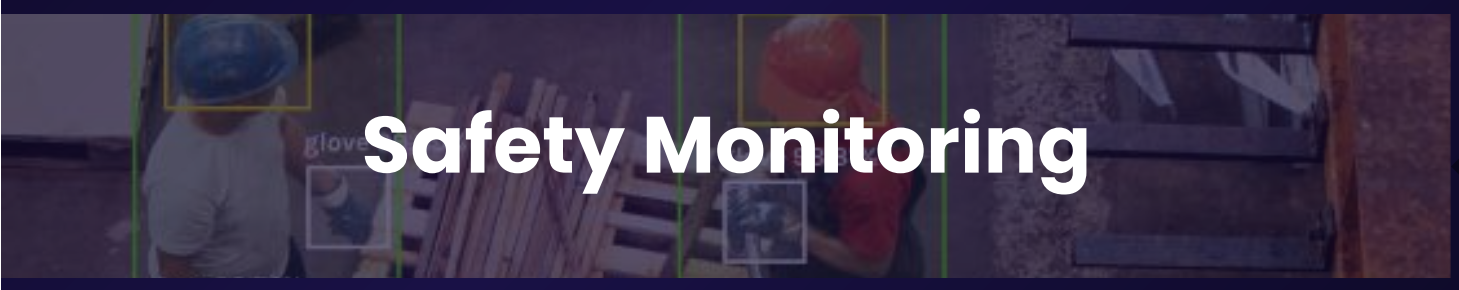
Seamless Performance: We provide uninterrupted and high performance for 365 **days without the need for human intervention.**

Secure Operations: We safeguard your business processes, enhancing efficiency and reliability.

Brand Value: We support you in strengthening your brand perception to help you achieve a leading position in your industry.

Flawless Processes, Fast Results, Enhanced Security, and Happy Patients...

Increase efficiency, reduce errors, and optimize your workforce to boost profitability.



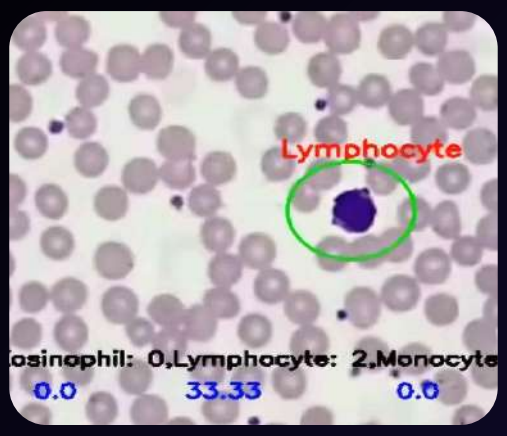
Prevent disasters and losses by ensuring real-time security and control.

Enhance identity verification security with fast, secure, and contactless access solutions while reducing costs.

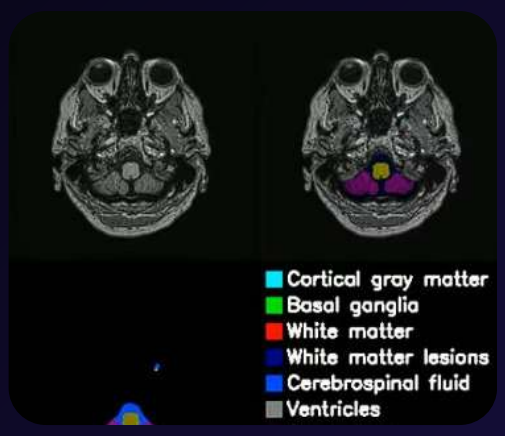
Monitor your vehicles in real-time to improve operational efficiency, enhance safety, and simplify management.

Main VisionCore Technologies

White Blood Cell Classification and Detection

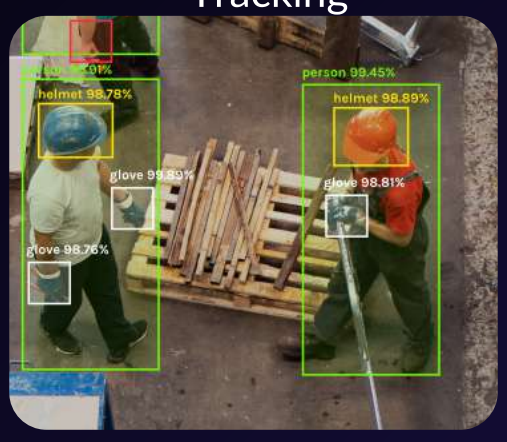


Brain Segmentation and Tumor Detection



Indoor Vehicle Tracking and Recognition Systems

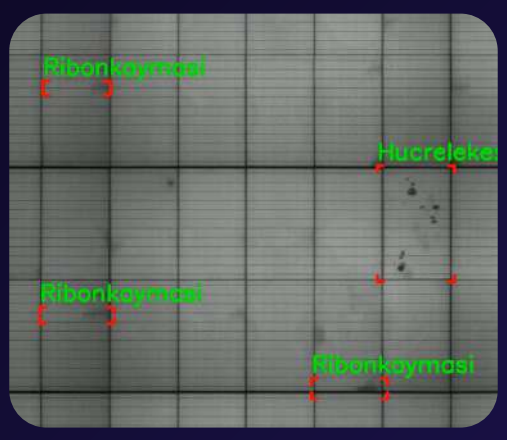
Workplace Safety Equipment Tracking



Real-Time Suspicious Activity Tracking

Hazardous Material Monitoring

Solar Panel Fault Inspection Tracking



Container and License Plate Tracking for Ports

AI-Powered Facial Recognition and Tracking Systems

Why VisionCore ? :

Pioneering Technology
We stand out in technology with our unrivaled artificial intelligence solutions.

Expert Team
With over 15 years of experience and a team of internationally recognized PhD-level experts, our engineers are here to support you.

Technological Superiority
From your production line to data analysis processes, we offer the most advanced technological tools developed with cutting-edge technology.

Lifetime Support
We ensure the seamless operation of our AI systems by providing ongoing support throughout all processes. Through routine maintenance and guaranteed error and system improvements, we ensure your satisfaction without disrupting your workflow.

Flexibility and Scalability
Since all engineering processes are handled by us, we can tailor every detail of your projects to your specific needs. Our scalable structure offers unlimited flexibility to expand or customize your projects.
